

# \$500.00 A MINUTE!

The annual fire losses in the United States exceed \$500 a minute. Every second nearly 10,000 matches are scratched in this country.

More fires are due to carelessness with matches, than to any other one cause.

Any Fire due to careless handling of matches, or to any other cause, in a built-up section may mean a conflagration.

The conflagration may not burn up your property

## BUT

YOU are vitally interested in every conflagration because if the Fire Insurance Companies involved in it cannot pay, your policy is valueless.

### Perhaps You Never Thought of That!

Nearly 2000 Fire Insurance Companies have retired from business or failed because of conflagration and other fire losses in the last 45 years.

ONLY TEN Fire Insurance Companies organized during the 45 years have accumulated as much

as \$600,000 net surplus with which to meet conflagration and other fire losses.

If you are insuring why not be absolutely sure of your company?
